As a follow-up from our call-in January, I was hoping that you and your team would be open to another call to discuss updates on the eRIN program.

As an action item from our last call, and in preparation for your expected notice in a few months, we have been working closely with BTR Energy to answer some of the questions you and your team posed on our last call.

We feel that we have helpful insights into making the RFS program more efficient in producing better environmental outcomes while also creating environmental justice considerations.

We would love to share our thoughts and receive feedback in preparation of the summer's activity.
